Subject: URGENT NOTICE: Update on change to the slate of Candidates being voted for in the current dot.ASIA Board Elections

We regret to inform the Members and Electorate of dot.Asia, of the following. Earlier today we received a withdrawal of candidacy from Mr Neil Gane.

As a result of this, and noting that 6 votes had already been cast, we have today temporarily suspended the voting platform, whilst we updated and engaged with the Board, and with their concurrence, once unsuspending shortly, fresh voting credentials with revised explanatory notes, will be sent to the electorate to vote on the now reduced slate.

We regret the inconvenience caused by this withdrawal to those who had already cast their poll for candidates, before the suspension of the current vote round and of course to the electorate and members in general.

This update Poll is planned to start date Feb 3, 2022, 00:00 UTC
- Poll close date **unchanged** so Feb 14, 2022, 23:59 UTC
- Same email vote confirmations will be used as previously described.

This affects the following aspects of the current election; the total number of **candidates is now 5 for 3 seats** and the number of candidates able to be selected for the **1 North East Asia seat** is now **2 candidates**, noting then-

- The following **5 candidates** are up for election for the **3 seats** in the Sponsor Member category:
 - a. Arthur CHANG
 - b. Leonid TODOROV
 - c. Maureen HILYARD
 - d. Murad IBRAGIMOV
 - e. Nicole T. I. CHAN

- The **2 candidates** for election from the **sub-region North East Asia** are:
 - a. Arthur CHANG
 - b. Nicole T. I. CHAN

As previously announced after voting, the **single candidate** from those two (2) listed immediately above, who receive the **highest number of votes will be deemed elected for the sub-region** of North East Asia with the **2 remaining seats filled by the top 2 candidates from the remaining 4.**

Regards, and apologies for this inconvenience to the electorate.
